

East Point Ga, Dec 23rd 64

Honored Parents Brothers & Sisters
I have the privilege of penning you
a few lines once more to inform
you of my welfare, my health is
good - the health of the company
is quite good, we have had some
addition to our numbers within
the last few days there is ~~4~~ of
the boys who were taken prisoner on
the 22nd of July returned to us again
they were exchanged the first of the
week. Green Williams Donovan
and Rains have got back to the
company of Hardwick In the mean Ray
& Bray have been exchanged and
are at Atlanta they will be up
soon, you have no doubt often
read of the treatment of our
prisoners by the rebels and from

what our boys tell and what I
have seen I cant doubt. Longy
says no man can remain any
length of time in that prison
without becoming more or less diseas
ed they take scurvy and deep cold
from laying on the ground without
any protection from sun or rain
and are just fed enough to keep
them from starving, there is quite
a number die daily, there has
been several sent farther south
and several exchanged. They appear
to be breaking up there prison at
Anderson ville they probably are
afraid of Sherman making a
raid on them and releasing
them. we moved camp again yesterday
our division (No 4th) has been broken
up and put in the 1st of 2nd Divisions
we are in the first, we havent as
good a camp as we left but
it will do by a little labor, I

have not had any mail from home
for sometime I started a letter
to Charles ^{Tracy} they have not been
payed yet we have been expecting
to get our pay for sometime I
suppose it will come before long.

please inform me in your
next how Geary Meeting went of
and of some of the attendants
&c. There is some heavy forts
here that the rebels had built
to protect the railroad The Montez
omey road starts out here. Smzy
says the country is tolerable good
from here to Macon - 100 miles - and
below there it is red sand and
there is but little being raised
anywhere he says he did not see
hardly any grain growing, they have
used every man that could shoot to
fight and have neglected their
crops. I will close for this
time. your wellwishing son Jas H. Mills

East Point Ga 9th mo 23rd 64 (September 23, 1864)

Honored Parents Brothers & Sister

I have the privilege of penning you a few lines once more to inform you of my welfare. My health is good—the health of the company is quite good. Wee have had some addition to our numbers within the last few days there is 4 of the boys who were taken prisoner on the 22nd of July returned to us again they were exchanged the first of thee week. Green Willoams Donovan and Rains have got back to thee company & Hardwick Linthicum Ray & Bray have been exchanged and are at Atlanta they will be up soon. You have no doubt often read of the treatment of our prisoners by the rebels and from what our boys tell us and what I have seen I cant doubt. Lenzy says no man can remain any length of time in that prison without becoming more or less diseased they take scurvy and deep cold from laying on the ground without any protection from sun or rain and are just fed enough to keep them from starving. There is quite a number die daily. There has been several sent farther south and several exchanged they appear to be breaking up there prison at Andersonville they probably are afraid of Sherman making a raid on them and releasing them. Wee mooved camp again yesterday our division (the 4th) has been broken up and put in the 1st & 2nd Divisions wee are in the first. Wee haven't as good a camp as wee left but it will do by a little labor. I have not had any mail from home for sometime I started a letter to Charles yesterday. Wee have not been payed yet wee have been expecting to to get our pay for sometime. I suppose it will come before long.

Please inform me in your next how Yearly Meeting went of and of come of the attendants & so. There is some heavy forts here that the rebels had built to protect the railroad the Montgomery road starts out here. Linzy says the country is tolerable good from here to Macon—100 miles—and below there it is red sand and there is but little being raised anywhere. He says he did not see hardly any grain growing, they have used every man that could shoot to fight and have neglected their crops. I will close for this time. Your wellwishing son Jno. H. Mills.
