

RFP Questions Received

Q. Do you need credit card terminals for processing or just the bracket to connect to the self loan station?

A. We do not plan to provide pay components. Our strong preference is to have pay equipment integrated into the units.

Q. After speaking with our team we may not be able to use Square for processing Credit Cards. Are you open to a third party vendor?

A. Yes.

Q. Also do you want to make change on cash payments?

A. In the event we decide to add this feature, we would want the kiosks to make change on cash payments.
